

The Commercial Appeal

CHANCE FAIR

The 50-page annual catalogue and premium list of the Hancock County Fair is just off the press of The Echo's plant and ready for distribution. Contestants are urged to procure a copy if interested in competing for the prizes to be awarded. The date of the Fair is October 6-7.

SUBSCRIPTION, \$2.00 PER ANNUM, ALWAYS IN ADVANCE.

BAY ST. LOUIS, MISSISSIPPI, SATURDAY, MAY 21ST, 1921.

THIRTIETH YEAR—NO. 21

Not on Friendly Terms

The figure 8 from an old-fashioned washday method. It is the magic figure in the 1900 Cataract Electric Washer which forces the water back and forth through the clothes in a perfect figure 8 motion four times over than in the ordinary washer.

The twisting wringer is reversible, and also works electrically. The copper tub has a one single part in it—nothing to lift out and clean after the wash is finished!

We'd be glad to deliver a 1900 Washer right to your home, and let you try it out. When you have seen what it can do, you may start paying for it on terms to suit your convenience.

Call, phone or write

1900 CATARACT WASHER

JOSEPH O. MAUFFRAY,
BAY ST. LOUIS, MISS.

BRIEF HAPPENINGS IN THE STATE THIS WEEK

SHRINERS HOLD MEETING AT JACKSON.—FORMER MAYOR AND EDITOR SUICIDES.—ODD FELLOWS MEET AT CAPITAL.—TEACHERS RESIGN POST.

The annual meeting of the Independent Order of Odd Fellows of the state is in session at Jackson this week. Grand Sire Jos. D. Oliver, of Toronto, Canada, is presiding over the convention.

Local representatives of life insurance companies from practically all cities and towns of Mississippi are in session at Jackson. Experienced agents from New York and other headquarters offices are present.

Governor Russell has issued the proclamation designating the week beginning May 22nd, as "Fire Prevention Week," and urges all citizens to observe that period. It is suggested that civic and patriotic organizations help in the observance.

Following an announcement of the school trustees to the teachers of Hattiesburg that next year's rate of pay would be 10 per cent lower than this year, every public school teacher in Hattiesburg refused to sign and returned their positions immediately.

Colonel Frank Townsend, 68, the mayor of Ackerman, and known all over the South as an editor and lawyer, was found dead in his home on Wednesday with his throat cut. Col. Townsend had been in ill health for some time and his family attributed his death to melancholia resulting from his physical condition.

It has been announced at Jackson that some of the insurance companies that have entered Mississippi since the withdrawal of the old line companies on account of the damage suit by the state revenue agent, have increased their rates over 10 per cent over the rates made by the Mississippi Inspection and Advisory and Rating Company at Vicksburg.

L. S. McGraw was shot and instantly killed at Mr. Kopp's church near Seminary this week by Smith. The shooting followed a fist fight after a meeting of church committee at which Smith resigned as member and McGraw was elected to fill the vacancy. Smith, an accomplished swimmer, was in the water and McGraw was in the boat.

Eva Green, the 14-year-old daughter of Mr. and Mrs. Tracy Green, is dead as the result of self-inflicted bullet wounds. Reprimanded by her parents last Sunday evening for her late return from school, the young girl depressed and despondent took a pistol from the mantelpiece in her home and sent a bullet crashing into her side, complications set in and she died within a few hours.

Subpoenas from the office of the United States District Court have been issued by the clerk at Jackson for the members of the committee of nine, representing the various commercial organizations of the state to appear before Federal Judge Edwin Holmes in Jackson on May 24th to answer the bill of complaint filed by the Cumberland Telephone and Telegraph Company.

Observes 15th Birthday. Hon. H. S. Weston, of Logtown, and Cashier Leo W. Seal, of the Hancock County Bank, have returned from Jackson, Miss., where they attended a banquet given in celebration of the fifteenth anniversary of the Lamar Life Insurance Company, of which Mr. Weston is president, and Mr. Seal is a member of the board of directors.

Deaths. Death is sad and deplorable under any and all conditions, and at any time in life and under any circumstance. Although she had lived a long and useful life and had long passed the biblical allotment, The Echo notes with much regret the death of Mrs. Plunkett, a venerable resident of this city, and beloved mother of Mrs. Emilie J. Gex and Miss Ida Plunkett, both of this city. In addition to these Mrs. Plunkett, of Oklahoma; Dr. Plunkett, of Carriere, Miss., survive her.

The City Marshal will execute and return the above notice instantly. R. W. WEBB, Mayor. Attest: SYLVAN J. LADNER, Clerk. Received the above call at 9 o'clock on this, the 14th day of May, 1921. ALBERT JONES, City Marshal.

We, the undersigned Aldermen of the City of Bay St. Louis, hereby acknowledge service of the above call upon us personally at Jackson, three hours before the time of meeting and waive copy of the call. W. C. SICK, L. C. CARVER, LEO R. BLAIZE, R. S. BLAIZE.

I have served notice on the above Aldermen at least three hours before the time of meeting. ALBERT JONES, City Marshal. No definite business being transacted or action taken on business for which the meeting was called, the Board adjourned its meeting in course. S. J. LADNER, Secy.

ST. STANISLAUS TAKES GAME FROM MARINERS

IN EXCITING GAME LAST SUNDAY BY A SCORE OF 4 TO 2.—MARINERS WELL REPRESENTED WITH MUSIC AND FANS.—BISHOP SAYS GAME.

Last Sunday the Marine Bank of New Orleans came over in special coaches with about two hundred players, fans, bands, fast ball team and great hopes for victory. The morning was spent in practice at the College Gym.

When the game was called at two o'clock a full grand stand greeted the players. The Hippo Phillips on the mound for the Bay, and Kraft for the Marines, the center rose on as exciting a game as we want to see. In point of interest this game ranks second only to the Hibernia game.

There was not a doubting during the whole game; in the beginning the Marines were throwing the ball one-two-three. Till Kraft walked in the fourth no man reached base for the visitors. Meantime Miss by Jauher and Lower had brought us up with a two-run lead. In the fourth infield errors accounted for another three runs and the Marines were single in the fifth and an error and a triple in the sixth brought the count up to three two. Scatfield's clean single in the sixth followed by two sacrifice flies doubled the score for us. Both pitchers tightened up and the scoring was over till the ninth.

Then came the ninth with the thrills of two or three ordinary games piled in ten long minutes. Till that time Hippo's arm had been doing faithful service but a soreness caused by a strain throwing the ball, Chevis first man up for the Marines picked a straight one and sailed it to the right center for two bases. Donahue then waited till the umpire motioned him down to first on four more or less wide ones. Shepard with three balls and two strikes on, forced Jauher to throw for a ground ball. It came. When the dust had cleared Shepard was on second, Chevis and Donahue had crossed the plate and the score stood four up.

With none down, a good baserunner caused by a strain throwing the ball, Chevis first man up for the Marines picked a straight one and sailed it to the right center for two bases. Donahue then waited till the umpire motioned him down to first on four more or less wide ones. Shepard with three balls and two strikes on, forced Jauher to throw for a ground ball. It came. When the dust had cleared Shepard was on second, Chevis and Donahue had crossed the plate and the score stood four up.

FULLER BULL SAYS BAY GREAT PLACE TO LIVE

IN LETTER TO HIS PAL BACK EAST—MEETS HON. MAYOR DESCRIBED AS "SOME SCENERY" BUT BELIEVE HIM HAS CLASSY DISPOSITION THO.

Bay St. Louis, May 18, 1921

Mr. Red Hogan,
New York, N. Y.

Dear Old Sorel Top:
As I previously remarked, I am still here, not exactly planted, Red, but pretty well stuck to the top of the ground, the top for mine, all except in one of Mr. Pullman's carries in the summer-time, then mix for the winter.

Red, I'm beginning to get acquainted "bout these parts" yes, I met Hissomner, the Mayor the other day, as luck would have it while he was surveying is domains with a critical eye, noticed he ran the afore said, "critics" in my direction when he gave me the once over. I reckon I must have measured up to requirements, for he put his disposition shift into high spirits and we had quite a tete-tete (that's what they call it when you get spoozy with a friend).

Well, Red, I'm not a burglar, I require a geographical description, Red, and as I never took no medals for bounding states or their kings, I'll just have to let you down with the fact that HE IS SOME SCENERY when it comes to measurements and it would take a fellow that knows the earth's surface to start any real bounding of this bird. He's got a classy dispo; alright, alright, Red, and carries along one of those regular vote-getting smiles and say, bo, the wise ones tell me that he's some good on a winning trip, but you have to do it to get a squirt at that mid-section, and you got about two volumes of dope on capabilities. His name? Why, Red, it reminds me of a spider—not in shape or dispo, but in building characteristics, as old Crook Dobbie would pause to ejaculate. Get me, Red?

While I was chewing the fibre with Hissomner a guy passed driving a white car hitched up to one of these Fetch-me-home rigs what you still see at county fairs. Whoozee! Mr. Mayor! "Hissomner! "The who? haven't met it?" Saysayee, "O, Al, come here a minute!" then he knuckled me down to the Chief Yeg-enather of the force. Say, Red, cross my heart, I'm darn glad it was the Mayor what did the "Meet-me-friend" act, for that bird's got all the nerve that belongs to some Metro-Burg where a guy gets real work; yes, bo, he's all to the ice when it comes to giving you the size-up. Wow, that bird don't need no refrigerator in his home, all he has to do is gaze at the steak and broil the meat, they tell me that he's got that "third degree" they use is that "Al" look.

Well, I says to myself, Right, its up to you to make friends, FULLER! NOW if you care to finger, "So, I met Hissomner, Red, but that's not it, wouldn't it be the arm-pit with a Coast-protector, but they do say that he's got a vein of humor when it ain't lumpy. I didn't make no fool remarks about a white horse, neither, because I didn't want to quarrel myself, see, but they say he's a hunter for the naz, for when he's on the trail he never makes extra noise no matter what gear he shifts to, or on moonlit nights that Nag is camouflaged to a fare-you-well, get me? He owns one of those Toronto gas machines, Red, but that's not it, wouldn't it be the arm-pit with a Coast-protector, but they do say that he's got a vein of humor when it ain't lumpy. I didn't make no fool remarks about a white horse, neither, because I didn't want to quarrel myself, see, but they say he's a hunter for the naz, for when he's on the trail he never makes extra noise no matter what gear he shifts to, or on moonlit nights that Nag is camouflaged to a fare-you-well, get me? He owns one of those Toronto gas machines, Red, but that's not it, wouldn't it be the arm-pit with a Coast-protector, but they do say that he's got a vein of humor when it ain't lumpy. Weak and Miserable?

Does the least exertion tire you out? Feel "blue" and worried and have daily backache, lameness, headaches, dizziness, and kidney irregularities? Sick kidneys are often to blame for this unhappy state. You must act quickly to prevent more serious trouble. Use **Doan's Kidney Pills**, the remedy recommended everywhere by grateful men. Ask your neighbor!

An Alabama Case

Mrs. C. J. Callahan, Bellville, Ala., says: "I had kidney trouble and my back pained me a great deal. I had dizzy spells and I felt all run down. My back hurt terribly when I stood up. I got taking Doan's Kidney Pills and it wasn't long before the troubles disappeared. I have been free from kidney complaint ever since."

No More Misery

After Eating

Just Takes An Etonio
"The first dose of Etonio did me
wonders. I take it at meals and am
no longer bothered with indigestion,"
writes Mr. Ellen Harris.
Thousands of people like this dear
lady, gratefully testify about Etonio,
which does its wonders by taking up
and carrying out the excess acidity and
gases which bring on indigestion,
heartburn, bloating, belching and food
repeating. Acid stomach also causes
about seventy other non-organic ailments.
Protect yourself. A big box
of Etonio costs but a trifle with your
druggist's guarantee.

FOR WOMAN'S HEALTH

Thousands of women always have
a box of **DR. TUTT'S LIVER PILLS**
in the house. At the first sign of
any irregularity a timely dose is
taken. These pills are the
safest and most effective
remedy for liver and
bowel troubles. Hence, their
popularity for over half a century. **FOR
CONSTIPATION THEY HAVE NO
EQUAL.**

INCREASE LAMB PRODUCTION

Sheep Can Successfully Be Raised
Without Danger of Stomach
Worms or Other Parasites.

(Prepared by the U. S. Department of
Agriculture.)

Specialized sheep farming, in which
forage crops were used for the
summer pasture, and a study of the
relation of nutrition of ewes at breeding
time to the percentage of lambs pro-
duced were included in the experi-
mental work conducted last year by
the United States Department of Agri-
culture at the government farms at
Beltsville, Md., and Middlebury, Vt.
Data were obtained relative to the
comparative relish with which sheep
eat different forage crops, and the
gains made while pasturing upon
them. It was demonstrated that with
the frequent rotation necessary in

Sheep Club Member and His Pet.

pasturing forage crops, sheep could be
successfully raised without danger of
infestation by stomach worms or other
internal parasites. Experiments in
the last four years to test the effect
of feed at breeding time upon the size
of the lamb crop have shown an in-
crease of 183 per cent of lambs pro-
duced by increased nutrition of ewes
during mating season for both Belts-
ville and Middlebury. This is an in-
crease of 25.9 per cent in the Belts-
ville flock and 8.55 per cent in the
Middlebury flock.

In experiments with 120 Western
ewes at the Middlebury farm to test
the effect of running sheep in per-
manent pastures upon the growth of
weeds, and the carrying capacity of
the fields, it has been demonstrated
that sheep are benefited in cleaning
pastures of weeds, but that it must
be accomplished gradually and should
not be overemphasized as a reason for
engaging in sheep raising.

NEW BREEDS OF LIVE STOCK

Columbia Sheep Are Particularly
Adapted to Range Conditions—
New Type of Horse.

The United States Department of
Agriculture is developing types of live
stock believed to be more useful than
some now represented by present
breeds.
Range sheep breeding conducted in
Clark county, Idaho, is resulting in
a type which has become so fixed as
to warrant its classification as a breed.
These sheep, known as Columbia
sheep, are particularly adapted to
range conditions and are believed to
be profitable both for mutton and wool
production.

A new type of American utility
horse is rapidly being established in
co-operation with the state, at Buf-
falo, Wyoming. Among the charac-
teristics of the type—possibly entitled to
the term "breed"—are activity,
strength, endurance, and reasonable
speed. The horses are believed to
meet a demand for general farm and
ranch work, delivery purposes, and
for certain classes of military serv-
ice.
Poultry breeding at the bureau
farm, Beltsville, Md., shows progress
in the establishment of a new breed
of fowl. Certain characteristics, such
as white plumage and yellow legs and
skin, are now well fixed, but there is
still considerable variation in the type
and in color of eggs. The birds de-
veloped this year show improvement
over those of a year ago.

JOINT OWNERSHIP OF SIRE

Nebraska Live Stock Owner Lists
Among Other Paradoxes of Jack.

Enrolling recently in the "Better
Stocks" movement, a live
stock owner in Fillmore county, Neb.,
listed in addition to female stock, one
bull, three horses, five rams and one
half interest in a pured Kentucky
jack. The fractional ownership of
pured sires is common, the Depart-
ment of Agriculture has found, among
persons desiring to improve the qual-
ity of farm live stock, but who have
an insufficient number of female ani-
mals to warrant owning pured males
in all classes. Fractional owner-
ship of one pured male is much
more desirable than the complete
ownership of several scrub or grade
sires.

Save the Orphan Pigs.
Orphan pigs which are often a total
loss to farmers can be raised with
little difficulty and will repay the
owner.

Not Encephalitic Eastern
Orphan pigs which are often a total
loss to farmers can be raised with
little difficulty and will repay the
owner.

Today's Geography

CENTER OF ITALY'S SOCIAL EARTHQUAKE ZONE

Milan, chief city of the Lombardy-
Friedmont region of Italy, where work-
ers seized factories several months
ago, and where much unrest has been
manifested since, has frankly consid-
ered itself for long years the virtual
capital—the "capitale morale"—of the
country.

In the recent industrial troubles fac-
tories are reported to have been
seized by workmen in practically all
parts of Italy; but it was in Lombardy
and Piedmont, the territorial division
lying farthest north and farthest
northwest in the peninsula—the seats
of the important Italian metal indus-
tries—that the seizures were most nu-
merous. In these regions, in turn, the
movement was most pronounced in
and about Turin, the principal city of
the Piedmont, and the Detroit of Italy;
and in Milan, metropolis of the north
and Italy's Fall River, Philadelphia
and Schenectady rolled into one.

Lombardy and the Piedmont com-
prise the plains of the upper reaches
of the great Po valley, the Alpine foot-
hills, and the southern and eastern
slopes of a large part of the Alps them-
selves. Milan, on a fertile plain near
the southern ends of some of the most
important of the Alpine passes, was a
town of considerable importance even
in the dim historic days of 223 B. C.,
when it was captured by the Romans.
It was then, as it is today, second
city in point of population in Italy.

Milan early earned a position of lead-
ership among surrounding cities, a
leadership, however, which did not go
unchallenged. The city has been de-
stroyed many times, once by a league
of neighboring towns, and at other
times by alien conquerors. After each
destruction it has sprung up on a seem-
ingly firmer foundation to achieve
greater popularity and a more far-
reaching influence.

Apart from any reputation Milan
may have gained as an index to in-
dustrial unrest, it is a leader among
Italian cities in other respects. In-
deed, the Milanese insist that their
city, their "capitale morale," is the
very heart and head of Italy's mod-
ern life and activity—"first in indus-
try, first in municipal progress, first
in political importance."

The industrial plants of modern
Milan have fairly burst the confines
of the old city and many are to be
found in numerous populous suburbs
that have sprung up, especially since
1850. The population now numbers
close to three-quarters of a million.
It is exceeded only slightly, if at all,
by that of Naples, and is considered
in excess of that of Rome.

TIENTSIN, PANORAMA CITY

Tientsin, in the northeastern edge
of the terrible Chinese famine area,
in which millions of people are starv-
ing to death, is like a beehive of
towns strung together.

To walk about Tientsin is to travel.
An afternoon's stroll from the native
to the British, French, Italian, Russian
and other foreign quarters, gives the
sensation of a magic tour through
Peking, London, Paris, Rome and
Petrograd. And the whirlwinds among
the salt mounds just outside the city,
add a touch of Holland.

This panorama city has had a tem-
pestuous history. There a group of
American and other foreign residents
defended themselves for a month
against the fanatic Boxers in 1900.

Since then the native city has been
known as "Cheong" or "Town without
Walls," because the ancient barriers
were demolished during the siege. Of
the 500,000 foreigners more than
fifty were killed and many others
wounded before military aid came.

Tientsin was the scene of another
famous siege, that of the Taping
rebels in 1853. Followers of Hung
Si-tsan, who had professed Chris-
tianity and set himself up in Nan-
king as the "Heavenly King," marched
toward Peking. But the Waterloo of
the long-haired rebels, so-called because
they could not plait their queues and
thus signify loyalty to the Manchus,
came at Tientsin.

The success of the campaign against
the revolutionists was due principally
to the gallant "Chinese Gordon," Gen.
Charles George Gordon, and his "Ever
Victorious Army."

Commanding the native force at
Tientsin was Seng-ko-lin-shin, a Mongol
general, who later distinguished him-
self less creditably. In 1890 he sought
to defend Tientsin against a foreign
expedition by erecting an immense
mud rampart outside the city. Tien-
tsin was captured and held for two
years by the British and French, and
the crude defense is known in the
foreign quarters as "Seng-ko-lin-shin's
fool."

The region about Tientsin was
known as Chi-chow under the Man-
chu dynasty, whose rulers, 400 years ago,
already had court astronomers who
could predict eclipses. Later it was
called Ya-chow, in the Chou dynasty,
marked by the western wars waged

by Ma Wang against the "Dog Bar-
barians," thought to have been ances-
tors of the Huns. Tientsin dates
back at least to the fourteenth cen-
tury.

The salt industry in the neighbor-
hood of Tientsin is prodigious. Wind-
mills are used to pump salt water into
the fields known as salt pans, where
the water is evaporated by the sun.
Before the war nearly 20,000
tons were produced annually. But
Tientsin is important commercially in
many respects. It is a rice market,
and Siberia's tea formerly was
shipped through there. Exports were
as varied as the needs of the dozen
or so nations which had separate set-
tlements along five miles of the river
front, and its imports were as diverse
as the commodities those nations had
to exchange.

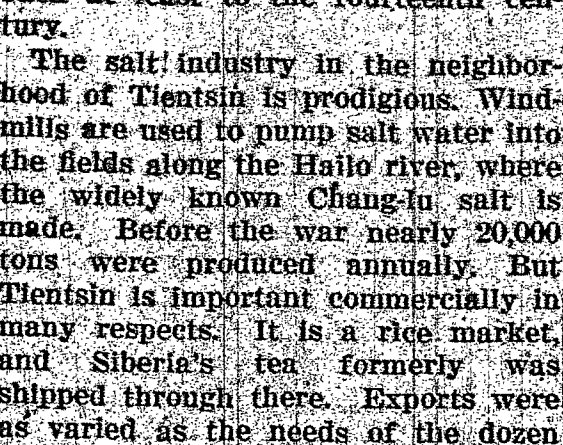

The Fello and Hunho rivers con-
verge at Tientsin. From the latter to
the Yangtze-Kiang extends the
Grand canal, that remarkable spec-
imen of ancient engineering mentioned
by Confucius, which originally was
more than 1,000 miles long.

Tientsin has more people than Bos-
ton. It is the principal city of Chi-
lin, and is 36 miles southeast of Peking
by rail.

ONE OF GERMANY'S LOST TERRITORIES

The former German Samoa is-
lands constitute one of the important
groups of Pacific islands that have
fallen to the lot of Great Britain,
through New Zealand, as a result of
the World war.

the World war.

Today's Geography

CENTER OF ITALY'S SOCIAL EARTHQUAKE ZONE

Milan, chief city of the Lombardy-
Friedmont region of Italy, where work-
ers seized factories several months
ago, and where much unrest has been
manifested since, has frankly consid-
ered itself for long years the virtual
capital—the "capitale morale"—of the
country.

In the recent industrial troubles fac-
tories are reported to have been
seized by workmen in practically all
parts of Italy; but it was in Lombardy
and Piedmont, the territorial division
lying farthest north and farthest
northwest in the peninsula—the seats
of the important Italian metal indus-
tries—that the seizures were most nu-
merous. In these regions, in turn, the
movement was most pronounced in
and about Turin, the principal city of
the Piedmont, and the Detroit of Italy;
and in Milan, metropolis of the north
and Italy's Fall River, Philadelphia
and Schenectady rolled into one.

Lombardy and the Piedmont com-
prise the plains of the upper reaches
of the great Po valley, the Alpine foot-
hills, and the southern and eastern
slopes of a large part of the Alps them-
selves. Milan, on a fertile plain near
the southern ends of some of the most
important of the Alpine passes, was a
town of considerable importance even
in the dim historic days of 223 B. C.,
when it was captured by the Romans.
It was then, as it is today, second
city in point of population in Italy.

Milan early earned a position of lead-
ership among surrounding cities, a
leadership, however, which did not go
unchallenged. The city has been de-
stroyed many times, once by a league
of neighboring towns, and at other
times by alien conquerors. After each
destruction it has sprung up on a seem-
ingly firmer foundation to achieve
greater popularity and a more far-
reaching influence.

Apart from any reputation Milan
may have gained as an index to in-
dustrial unrest, it is a leader among
Italian cities in other respects. In-
deed, the Milanese insist that their
city, their "capitale morale," is the
very heart and head of Italy's mod-
ern life and activity—"first in indus-
try, first in municipal progress, first
in political importance."

The industrial plants of modern
Milan have fairly burst the confines
of the old city and many are to be
found in numerous populous suburbs
that have sprung up, especially since
1850. The population now numbers
close to three-quarters of a million.
It is exceeded only slightly, if at all,
by that of Naples, and is considered
in excess of that of Rome.

TIENTSIN, PANORAMA CITY

Tientsin, in the northeastern edge
of the terrible Chinese famine area,
in which millions of people are starv-
ing to death, is like a beehive of
towns strung together.

To walk about Tientsin is to travel.
An afternoon's stroll from the native
to the British, French, Italian, Russian
and other foreign quarters, gives the
sensation of a magic tour through
Peking, London, Paris, Rome and
Petrograd. And the whirlwinds among
the salt mounds just outside the city,
add a touch of Holland.

This panorama city has had a tem-
pestuous history. There a group of
American and other foreign residents
defended themselves for a month
against the fanatic Boxers in 1900.

Since then the native city has been
known as "Cheong" or "Town without
Walls," because the ancient barriers
were demolished during the siege. Of
the 500,000 foreigners more than
fifty were killed and many others
wounded before military aid came.

Tientsin was the scene of another
famous siege, that of the Taping
rebels in 1853. Followers of Hung
Si-tsan, who had professed Chris-
tianity and set himself up in Nan-
king as the "Heavenly King," marched
toward Peking. But the Waterloo of
the long-haired rebels, so-called because
they could not plait their queues and
thus signify loyalty to the Manchus,
came at Tientsin.

The success of the campaign against
the revolutionists was due principally
to the gallant "Chinese Gordon," Gen.
Charles George Gordon, and his "Ever
Victorious Army."

Commanding the native force at
Tientsin was Seng-ko-lin-shin, a Mongol
general, who later distinguished him-
self less creditably. In 1890 he sought
to defend Tientsin against a foreign
expedition by erecting an immense
mud rampart outside the city. Tien-
tsin was captured and held for two
years by the British and French, and
the crude defense is known in the
foreign quarters as "Seng-ko-lin-shin's
fool."

The region about Tientsin was
known as Chi-chow under the Man-
chu dynasty, whose rulers, 400 years ago,
already had court astronomers who
could predict eclipses. Later it was
called Ya-chow, in the Chou dynasty,
marked by the western wars waged

by Ma Wang against the "Dog Bar-
barians," thought to have been ances-
tors of the Huns. Tientsin dates
back at least to the fourteenth cen-
tury.

The salt industry in the neighbor-
hood of Tientsin is prodigious. Wind-
mills are used to pump salt water into
the fields known as salt pans, where
the water is evaporated by the sun.
Before the war nearly 20,000
tons were produced annually. But
Tientsin is important commercially in
many respects. It is a rice market,
and Siberia's tea formerly was
shipped through there. Exports were
as varied as the needs of the dozen
or so nations which had separate set-
tlements along five miles of the river
front, and its imports were as diverse
as the commodities those nations had
to exchange.

The Fello and Hunho rivers con-
verge at Tientsin. From the latter to
the Yangtze-Kiang extends the
Grand canal, that remarkable spec-
imen of ancient engineering mentioned
by Confucius, which originally was
more than 1,000 miles long.

Tientsin has more people than Bos-
ton. It is the principal city of Chi-
lin, and is 36 miles southeast of Peking
by rail.

PITTSBURG MAN MAKES WONDERFUL STATEMENT

Declares Tanlac Enabled Him to Eat Better, Sleep Better and Work Better.—Has Gained Thirty Pounds.

HARRY M. ALLEN
Of Pittsburgh, Pa.

"I consider Tanlac the greatest
medicine in the world, for I have
actually gained 30 pounds in weight
since I began taking it. It has just
simply filled me with new life and
energy and for the first time in years
I can sit down to the table and en-
joy three square meals a day like
other people. In fact, Tanlac has
made me eat better, feel better, sleep
better, and work better, and I guess
that's all a man can expect of a
medicine."

"Before I took Tanlac, I was off 35
pounds in weight and was so badly
run down I was hardly able to do my
work. Nothing seemed to agree with
me and my food invariably soured on
my stomach. I would always have an
uncomfortable bloated up feeling in
my stomach, and although I tried
many kinds of medicines, I never got
relief until I took Tanlac."

"I also suffered considerably at
times from Rheumatism, but this has
all disappeared. In fact, this wonder-
ful medicine has made a new man out
of me in every way. I feel years
younger and can do much work as
in any day of my life."

"Of course, I am only too glad to
give you my testimonial because I
want other people who are suffering
as I did to take this medicine and get
relief."

First Printer (having got rid of
bore)—"That fellow's a type, isn't
he?" Second Printer—"A type? He's
a case."

JOY BROUGHT INTO HOME

By Lydia E. Pinkham's Vegetable Compound, Restoring Mrs. Benz to Health

Altoona, Pa.—"I am writing to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. We have had six children die almost at birth. From one hour to nineteen days is all they have lived. As I was going to have another, I took a dozen bottles of your Vegetable Compound and I can say that it is the greatest medicine on earth, for this baby is now four months old and a healthy baby you would not want. I am sending you a picture of her. Everybody says, 'That is some healthy looking baby.' You have my consent to show this letter."—Mrs. C. W. Benz, 131 1/2 Ave., Altoona, Pa.

No woman can realize the joy and happiness this healthy baby brought into the home of Mrs. Benz, unless they have had a like experience.

Every woman who suffers from all ailments peculiar to her sex, as indicated by backaches, headaches, bearing-down pains, irregularities, nervousness and "the blues" should not rest until they have given Lydia E. Pinkham's Vegetable Compound a trial.

It is estimated that in the last 35 years, that is since the discovery of gold in the Yukon, \$200,000,000 of the precious metal has been recovered, and it is predicted that within the next quarter of a century another \$200,000,000 will be given to the world in the form of silver from the Mayo area where there are indications of rich finds.

Guard your influence. After it goes out, you can never catch up with it.

Renew your health by purifying your system with

Quick and delightful relief for biliousness, colds, constipation, headaches, and stomach, liver and blood troubles.

The genuine are sold only in 35c packages. Avoid imitations.

5 Days' Free Trial

If You Need GLASSES for Reading or for seeing at a distance, we will send you five days' free trial a large handsome pair of light or dark shell rim glasses with gold-filled bridge and temples, regular gold-filled frames throughout fitted with splendid lenses for only \$5.00. These glasses have been sold for from \$10.00 to \$18.00 during the past few years by retailers and traveling salesmen. We are manufacturers and can produce these high grade glasses for less than half the usual price. Write us your age and how long you have been wearing glasses and we will send you a pair on trial. If they do not suit, you can return them. These goods are sold strictly on their merits and you can be the judge as to their usefulness. Address: Nashville Spectacle House, Arcade, Nashville, Tenn.

DEMAND FOR SAFE ROADWAYS

Some Kind of Protection Should Be Provided to Keep Cars From Skidding Off Dirt Roads.

What value do we place on a human life? To judge by some of the roads over the country it is not much. Lives are lost many times where a few dollars for a little extra time would make a road safe enough so that taking a ride along them on a rainy day in an auto would not be such a hair-raising experience as is often the case now, says a writer in Successful Farmer.

Recently a friend of mine was driving along a road within a half mile of a small town and ran into a ditch six feet deep, upsetting his car and smashing things up generally, though he escaped unhurt, and had no one with him. Many complaints had been made about that road, but nothing was done by anyone. On either side the ditch came within less than two feet of the roadway, and there was not even a ridge or anything to ward the wheels off and keep them from sliding over.

When hundreds of automobiles are owned in every part of the country and it is impossible to always keep off roads when they are slippery, it is not morally right and should not be legally right to leave them in a condition that would make an accident under ordinary conditions possible. During the last two years I have been riding around considerably and we have been in places where it was very dangerous driving, and often came up on such places with no chance at all to avoid them. In one case we crossed a bridge after a light shower, and on the far side found that it had caved away to within six inches of the road, though that was solid. For a road ditch was not two feet from the road, with nothing to check a slide into it. A very steep hill began just beyond the bridge. Our car could not make the hill, and we stalled, and had to back some. The least bit of skidding would have been certain to have car-

Properly Protected Road.

ried us over the bank and for several minutes it looked like we were to go down six or eight feet into a creek. It is not always that such places are on unimportant roads. In fact the first place mentioned was on a main traveled road between county seats and automobiles used it on long distance travel. In the main it was a fine road well kept, but there were two or three places that were really dangerous, though this was the worst of all. Wherever there is a place at the side of a dirt road that has much travel, that is deep enough to upset a car that went down into it, some kind of protection should be made to keep cars from skidding off. We are not considering the quick dash to one side from car driving or going too fast in mud, but the unavoidable slide that is bound to occur now and then. Our roads should be safe in muddy weather as far as we can make them for often at such times we have to use them with our cars.

UNITED STATES' GOOD ROADS

Work is in Progress in Every Section to Give Country Superior Highway System.

The time is rapidly passing when the bad roads of America can be pointed out as a reproach. In every section of the country work is in progress to give the United States a system of roads which will compare favorably with those of other countries. Roads are being built at 2,485 different points. Fully 30,000 miles of road have been approved by the secretary of agriculture. It is estimated that this construction will cost the country nearly \$400,000,000. At the end of June, 1920, the government reported that 2,116 different projects, or a total of 16,000 miles of roads, had been completed—Bors' Life.

NEW CHARACTER OF TRAFFIC

Most of Existing Highways Were Not Constructed to Support Heavy Loads Now Imposed.

Most of our existing roads were not designed with a view of carrying the heavy loads now imposed upon them, and in new roads it would seem the builders cannot make the present character of traffic with the new character of the traffic. The new roads are being built to carry the new loads.

POULTRY CACKLES

DISINFECTING DOES NOT KILL

Painting Roosts and Drooping Boards of No Value in Destroying Chicken Parasites.

(Prepared by the United States Department of Agriculture.) There have been many advocates of the theory that chicken lice can be killed by painting the roosts and drooping boards of the whole interior of the poultry house with various oil mixtures, the idea being that the vapors penetrate the feathers of the roosting fowls and kill the lice. This method has been given a very extensive trial by specialists of the United States Department of Agriculture, and not one of the 42 different preparations tested was found to be of any value. These preparations contained one or more of the following ingredients: Phenols, tar oils, hydrocarbon oils, cresote oil, carbon disulphide, wood-tar distillate, benzol, nitrobenzene, naphthalene, nitracene oil, and pyridine.

Dusting Is Most Satisfactory Method of Killing Vermin.

In these experiments the roosts and drooping boards of the whole interior of the house were thoroughly painted or sprayed just before the fowls went to roost, and all doors, windows, and ventilators were closed during the first night. Five badly infested fowls were used in each test, and at the end of one week examination was made for living lice. Although an occasional dead louse was found on the drooping boards in one case, the treatment of any practical value was found. In many of these preparations were found to be effective when used as fumigants in small boxes, it is apparent that the ineffectiveness of house treatment is due to the fact that the fumes do not become concentrated enough to kill the lice. Tests were also made with fine sulphur applied in the same way; this also was found to be of no value.

The following ingredients: Phenols, tar oils, hydrocarbon oils, cresote oil, carbon disulphide, wood-tar distillate, benzol, nitrobenzene, naphthalene, nitracene oil, and pyridine.

GIVE CHICKENS FREE RANGE

Allowing Fowls Are Enabled to Obtain Quantities of Bug, Worm, Green Feed, Etc.

When the garden crops have reached maturity or are far enough developed to suffer little damage from chickens the flock should be given free range. There are times in late summer and early fall when the benefit received by the poultry will exceed the slight injury some garden products may incur. Free range enables growing chickens to obtain quantities of green feed, bugs, worms, and other things. The chickens therefore require less grain and are less liable to sickness or disease. Exercise and ability to range for even a few hours a day is beneficial to a flock that has been kept in confinement during spring and early summer.

CONTROL OF LICE AND MITES

Dust Bath Will Aid Materially, but Should Not Be Depended Upon Entirely.

While it is well to provide a good dust bath for chickens, it cannot be depended upon for lice and mite control, say specialists of the United States Department of Agriculture. It is far better to eradicate the pests completely. The main difficulty about depending upon dust baths is that some fowls seldom dust themselves, and those which do dust freely never completely free themselves of lice. The dust bath should be kept under cover and may consist of fine road dust with coal ashes added.

WATCH HATCHING DUCK EGGS

Care Must Be Taken That Empty Shells Do Not Telescope Over Eggs Just Flipped.

When hatching duck eggs under a hen, watch the eggs while ducklings are hatching and remove empty shells from the nest at once. Sometimes empty shells telescope over eggs just hatched, causing the death of the unhatched duckling. If the hen is at all nervous and liable to tramp on the eggs, it is best to remove them from the nest as soon as they are hatched.

Daddy's Evening Fairy Tale

BY MARY GRAHAM BONNER

FALSE VANITY'S FORTUNES.

Master Thoughtfulness knew quite well that the boy and the girl adventurers would not let old Madame False Vanity fool them.

He sang to himself as he thought of what a joke it would be. She would soon see she couldn't.

"First," said Madame False Vanity, "I will tell the beautiful young girl's fortune."

She stopped looking at herself in the pool and looked at the girl, reaching out for her hand.

The girl gave Madame False Vanity her hand and looked at her. She seemed to look more artificial than ever, her hair looked as though she had dyed it, and her face looked as though she had painted it with a brush. It seemed to the girl that Madame False Vanity was unnatural.

"Gaze into the pool," said Madame False Vanity.

The girl gazed into the pool and she looked quite different.

"Hear what she has to say," whispered Master Thoughtfulness, "but don't believe any of it, for she is a dreadful creature for not telling the truth. She likes everything that is false. And she does a great deal of harm. You'll see."

"Are you talking about me?" asked Madame False Vanity of Master Thoughtfulness. "You're such a thoughtful soul that you are probably warning this boy and girl not to believe me."

"Now, what is the use of that, Master Thoughtfulness?"

"I'm not let them get all the fun they can by believing they're beautiful and lovely and fine, and that they will be rich and splendid and noble."

"Ah," said Master Thoughtfulness, "you have seen that you don't fool this boy and this girl, and so for one of the few times in your fortune-telling life you've been quite honest."

"You tell fortunes to people, and make false promises. You tell them they will surely be fine and splendid and beautiful and brave. You flatter them. You make them vain. You keep them from having any ambition. That is one of the worst things about you."

Such Nonsense.

"You make them vain. You keep them from having any ambition. That is one of the worst things about you."

"I don't really look at all like I look in this pool," said the girl, "I make me look different. Madame False Vanity has her pool into which she makes folks look away from the bright sunshine. She knows there is nothing false about the sunshine, and that she can't fool with it. Madame False Vanity looked at the girl and sighed. "You believe Master Thoughtfulness and you won't believe False Vanity, though I will give you lots of happiness and false delight over false and unreal promises. I will save you from doing anything that is hard. You need only think you are fine."

"Give it me," said Master Thoughtfulness to himself, "that this boy and this girl can't be influenced by False Vanity. Sometimes, no matter what I say, her manner and her way makes folks do as she says, and then they go on through their days and nights patting themselves on the back and saying that they're wonderful, when they're not in the least, and when they're making no effort to improve themselves."

"Here, boy, let me tell you your fortune," said Madame False Vanity. "I like boys, for boys will be great successful men, and they will be popular and they will be handsome."

"Oh, boy," laughed the boy, "did I ever hear such nonsense in all my life?"

"I don't believe I brought very good customers to you today," said Master Thoughtfulness.

"I do not mind," said Madame False Vanity. "I'm kept busy enough, and boys and girls don't make such good customers nowadays. They don't have much faith in me."

"Good-bye," then, said Master Thoughtfulness, and the boy and the girl called out their good-bys, too.

He Should Be a Diplomat.

Three boys were sitting on a fence. One was eating an apple. One of the other boys said, "Gimme a hunk of your apple." "I would if you hadn't asked me," replied the apple eater calmly.

In a short while the third boy spoke up thoughtfully, saying, "Well, I never asked you, did I?" "Nope," replied the boy of the apple, swallowing the last of it in one mouthful, "you didn't ask me for any, so I suppose you didn't want it."

San Francisco Quake Was in 1905.

The San Francisco earthquake occurred April 18, 1906. The area affected was at least 400 miles in length, extending from Berkeley in Humboldt county in the northern extremity of the state to the southern extremity of the state.

The Kitchen Cabinet

(© 1921, Western Newspaper Union.)

SEASONABLE GOOD THINGS.

A simple dessert which may be given children is the following:

Blueberry Pudding.—The amount of bread used for this pudding depends upon the size of the family. Arrange layers of thinly sliced buttered bread in a shallow baking dish, pour over enough canned blueberries to cover. Place in a moderate oven and bake until thoroughly hot. Set away to cool and serve unmixed with cream and sugar.

Raisin Tapioca.—Soak one cupful of pearl tapioca overnight in cold water and cook in a double boiler in a quart of milk until soft. Remove from the fire and let cool slightly, stirring in three tablespoonsful of butter. Heat two cupfuls of milk and stir into it three beaten eggs. Add to the warm tapioca. Stir in one cupful of sugar and one-half pound of seeded raisins with the grated yellow rind of one-half a lemon and bake in a moderate oven for an hour, stirring occasionally until the consistency is even all through, then allowing to brown on top.

Apple Frappe With Maple Sauce.—Bake without cooking or paring eight good-sized, green-fleshed apples. Slit through a colander when soft, pressing out the part nearest the stem; this is the best flavored. Add one and one-half cupfuls of sugar, a few cloves and cook, stirring carefully to avoid burning, until the mixture boils. Cool and freeze. Serve in flaring glasses with a garnish of red jelly and the following:

Hot Maple Sauce.—Cook together two cupfuls of maple syrup with one cupful of cream until the soft-ball stage is reached. Remove from the fire, set saucepan in hot water and dip a spoonful over the top of each glass of frappe.

Cake and Cheese Dessert.—Break into small custard cups of glass enough bits of cake to half fill. Add a few raisins, moisten with fruit jelly, cover with a layer of grated cheese to nearly fill the cups. Place in a steamer to melt the cheese. Serve with jelly and whipped cream over the top.

Sherry Dressing.—Chop fine one Bermuda onion, a tablespoonful of minced parsley, one tablespoonful each of chopped green pepper and chopped red pepper, one teaspoonful of powdered sugar, one-half teaspoonful of salt, a few dashes of cayenne, three-fourths of a cupful of olive oil and one-fourth of a cupful of not too strong cider vinegar. Put into a pint mason jar, seal and shake well for five minutes, then set aside for an hour or more before using. Just before serving shake again to have the dressing well mixed.

FOOD FOR THE FAMILY.

Meat bills may be reduced by buying the cheaper cuts, cooking them well and serving them in an attractive manner.

Steak Stew.—Take one-third slice of good round steak, weighing one pound. Slice two large onions and put into a saucepan with two tablespoonfuls of sweet fat, cook for two or three minutes and when very hot add the steak, cook until brown on both sides. To the steak add the water from a quart of small, cooked onions; add one-half dozen mustard seeds, one diced sweet pepper, pepper and salt to taste. Thicken the sauce with two tablespoonfuls of flour and the same of butter, blended and melted, two tablespoonfuls of mushrooms (the dry ones soaked may be used) and the same of tomato catsup. Let the whole simmer, then surround with dumplings or baking powder biscuits, placing the cooked onions between the biscuit. Serve very hot. With this amount of steak a dish will be greatly extended by the vegetables and dumplings.

Hamburg Steak Savory.—Put round steak through the meat grinder, adding a slice of salt pork, form lightly into cakes, flat and thin; dip in flour. Fry thinly cut bacon until crisp and brown, remove to a platter and keep hot. Pour off some of the fat in the remainder, saute the steak balls, season and place in the center of the platter. Pour a cupful of tomato sauce into the frying pan, stir to blend with the remaining fat, and when very hot, pour around the balls. Garnish with the curly bacon and parsley.

Hocks and ham ends make a most substantial dish. Cook the hocks for an hour or more, then add such vegetables as carrots, cabbage, turnips and parsnips, with a few potatoes. Serve as a boiled dinner. The ham ends may be boiled, a few slices used, or a slice to fry or broil, then the rest boiled, served, sliced or minced, and used in various dishes, as sandwich filling and in cream sauce.

Nellie Maxwell

San Francisco Quake Was in 1905.

The San Francisco earthquake occurred April 18, 1906. The area affected was at least 400 miles in length, extending from Berkeley in Humboldt county in the northern extremity of the state to the southern extremity of the state.

Cataract Can Be Cured

Cataract is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARACT MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system. HALL'S CATARACT MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work.

Too Bad.

Scriptor (to his friend)—Well, what do you think of my bust? Fine piece of marble, isn't it?

Friend—Magnificent. What a pity to have made a bust of it. It would have made a lovely washstand.—Pearson's Weekly.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Name "Bayer" on Genuine

Take Aspirin only as told in each package of genuine Bayer Tablets of Aspirin. Then you will be following the directions and dosage worked out by physicians during 21 years, and proved safe by millions. Take no chances with substitutes. If you see the Bayer Cross on tablets, you can take them without fear for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin-boxes of twelve tablets cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monocetate of Salicylic Acid, Adv.

His Step.

Fond Father—Before I consent to the marriage I must know this young man's qualifications. Now, has he great strength, endurance? Can he keep on his feet despite entangling influences? Has he balance, poise?

Tanette—Oh, yes, daddy. Reggie fox trots divinely!—Life.

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Too Bad.

Scriptor (to his friend)—Well, what do you think of my bust? Fine piece of marble, isn't it?

Friend—Magnificent. What a pity to have made a bust of it. It would have made a lovely washstand.—Pearson's Weekly.

Cataract Can Be Cured

Cataract is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARACT MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system. HALL'S CATARACT MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work.

All Druggists. Circulars free: E. J. Querry & Co., Toledo, Ohio.
